PROFESSIONAL SUMMARY

IT and networking professional with a strong technical foundation built over 7 years in the U.S. Navy as an Aviation Electronics Technician. Currently pursuing an associate in science in Network Systems Technology at FSCJ, with real-world experience in network operations, fiber optics, and technical troubleshooting from both military and civilian roles.

EXPERIENCE

Network Operations Lead

July 2022 – February 2025

PRIME Technical Solutions (Teaming Partner of Leidos) | NAS Mayport, FL

- Established and maintained wireless network services for naval vessels arriving at port, including antenna deployment and network switch configuration.
- Monitored network performance and assisted in troubleshooting connectivity issues to ensure continuous service availability.
- Deployed fiber optic umbilical cables from pier to ship to support high-speed testing requirements.
- Maintained and repaired umbilical cables, always ensuring operational readiness.

Customer Support Representative

September 2021 – May 2022

Maximus (FEMA Project / Next Gen) | Jacksonville, FL

- Assisted callers with questions and concerns related to local and state emergency declarations, delivering accurate and compassionate support.
- Guided disaster survivors through the FEMA aid application process for property damage and loss claims.
- Utilized computer systems, email platforms, and phone systems to efficiently manage a high volume of inquiries.

Aviation Electronics Technician

February 2014 – July 2021

U.S. Navy | Lemoore, CA / Jacksonville, FL

- Served as Collateral Duty Inspector (Nov 2020 – Jul 2021) — conducted rigorous Quality Assurance inspections across all work center maintenance, personally verifying 147 jobs for compliance with technical manuals and Navy standards.
- Monitored and managed work center workload to ensure timely and accurate completion of all maintenance actions.
- Performed intermediate-level repair on aviation electronic components for P-3 and F/A-18 navigation and communication systems using conventional and automatic test equipment, technical publications, schematics, and precision hand tools.
- Maintained test equipment and test benches; repaired shop-replaceable assemblies to sustain operational readiness.
- Performed identification, removal, and application of conformal coatings; removed and replaced discrete and multi-lead electronic components; prepared and installed eyelets; repaired and replaced conductors and laminates.
- Completed 313 Miniature/Microminiature (2M) maintenance actions in full compliance with Navy standards.
- Rebuilt and repaired 50+ wiring harnesses for F/A-18 and P-3 aircraft using multimeters, pin crimpers, and soldering equipment per applicable technical manuals and wiring diagrams.

CERTIFICATIONS & TRAINING

CompTIA Security+ – CompTIA

October 2023

MEWP Boom and Scissor Lift Operator – Sunbelt Rentals

May 2024

AN/USM-674 Operator/Maintainer (A-100-0076) – CNATTU Mayport

April 2019

Support Equipment Asset Manager (C-555-0026) – CNATTU Jacksonville	June 2017
KITCO Fiber Optic Maintenance (A-670-0063) – CNATTU Mayport	May 2017
Microminiature Electronic Repair Technician (A-100-0073) – CNATTU Mayport	October 2016
Miniature Electronic Repair Technician (A-100-0072) – CNATTU Mayport	July 2016
AYK-14(V) IMA (C-102-4018) – CNATTU Oceana	February 2015
Combined TACAN Intermediate Maintenance (C-102-4050) – CNATTU Oceana	February 2015

EDUCATION

Florida State College at Jacksonville (FSCJ) <i>Jacksonville, FL</i>	August 2025 – Present
Associate in science – Network Systems Technology (In Progress)	
Milton Hershey School <i>Hershey, PA</i>	2008 – 2012

CORE COMPETENCIES

Aviation Electronics • Network Operations • Quality Assurance • Team Leadership & Supervision • Technical Publications • Equipment Maintenance • Time Management • Attention to Detail
